DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, None of the prior art teaches or suggest a method or system or machine readable medium for imaging a desired coronary artery of desired portion comprising scanning a volume of a patient's heart with a CT imaging system to acquire projection data, the volume including at least a first desired coronary artery branch segment and a second desired coronary artery branch segment, and the acquired projection data including a first projection dataset representing the first desired coronary artery branch segment acquired during a first desired cardiac phase (low motion period) of a plurality of cardiac cycles of the patient and a second projection dataset representing the second desired coronary artery branch segment acquired during a second desired cardiac phase (low motion period) of a plurality of cardiac cycles of the patient and reconstructing 3D image of the coronary artery utilizing a first 2D image reconstructed by first desired coronary artery branch segment and a second 2D image reconstructed by second desired coronary artery branch segment as claimed in independent claims 1, 4, 8, 11, 15 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Pearlman (US 5602891) teaches a method of imaging a target vessel but fails to teach the allowable subject matter above.
